- ✓ **Ideal for patient transport vehicles and air conditioning**
- ✓ **Suitable for small areas**
- ✓ **Strong disinfecting properties**
- ✓ **One-shot action**

LIMITED SPECTRUM VIRUCIDAL :
Coronavirus, H1N1 (Influenza A)...

APPLICATION

One-shot air purifier with mint fragrance for a fresh atmosphere.

Disinfects all washable surfaces and purifies air. Destroys bacteria and prevents the development of mould, yeast and fungus.

Disinfecting activities:

- Bactericide in compliance with EN1276 and EN 13697 in 5 minutes at 20°C for Staphylococcus aureus, Pseudomonas aeruginosa, Escherichia coli, Enterococcus hirae in clean conditions
- Fungicide in compliance with EN1650 and EN13697 in 15 minutes at 20°C for Candida albicans and Aspergillus Niger in clean conditions
- Active against enveloped viruses (Model for vaccinia virus MVA) in compliance with EN14476 in 5 minutes at 20°C in clean conditions

For use in patient transport vehicles, doctors surgeries, schools, retirement homes, hospitals, changing rooms, polling booths before and after elections, funeral parlors, etc.

Destroys repulsive odours in premises before the arrival of new tenants, bin storage areas.

1 aerosol treats a standard room measuring up to 45 m³ (approx. 18m²).

Do not overdose. Comply with volume recommendations. Do not use in an area under 1m³.

RECOMMENDED FOR

- Patient transport vehicles - ambulances, fire trucks, etc.
- Vehicle air conditioning
- Cleaning companies
- Local authorities
- Hospitals, retirement homes, medical facilities

INSTRUCTIONS FOR USE

Switch electric devices off and put out flames or any other heat sources (boiler, etc.). Close all windows, inside doors

and cupboards. Remove food and cooking equipment and utensils. Do not use in the presence of children and pets. Place the aerosol in the centre of the room.

Press the tongue until it is blocked. Product is diffused. Leave the room and shut the door; The fogger continues until empty.

Leave to take effect for at least 15 minutes. Air the room for at least 1 hour before returning.

INSTRUCTIONS FOR USE IN SPECIAL VEHICLES

Clean the inside of the vehicle. Start the engine. Turn the air conditioning on and set it to the maximum cold setting. Ventilate as much as possible. Open the vents. Set to air recycling. Close the windows. Push the passenger seat back as far as possible. Shake the aerosol and place it on the floor between the seat and the dashboard. Press on the tongue until diffusion begins. Leave and close the vehicle.

Allow the aerosol to empty completely then leave to take effect for 15 minutes. Open and start the engine and air the vehicle for at least 1 hour before returning to the car.
